NOTE FOR:

25X1

Regarding the shell casing from El Salvador shown to me by , the following pertains:

25X1

- It is a NATO .762 x 51, roughly equivalent to our .308.
- The marking 10 could mean Bulgarian, but Bulgarian shells usually have a small red star on the casing.
- It was fired by a G-3, a West German assault rifle. G-3s are prominent in the third world, and they are all over Central America.
